INNOVATION IN LIVESTOCK PRODUCTION: FROM IDEAS TO PRACTICE

31 AUGUST - 4 SEPTEMBER 2015
WARSAW, POLAND
Ladies and Gentlemen,

The 66th Annual Meeting of European Federation of Animal Science (EAAP) will be held from 31st of August to 4th of September 2015, on the Campus of Warsaw University of Life Sciences SGGW. It will be organised under the patronage of the Minister of Agriculture and Rural Development. The main Organiser of the Congress is the Polish Society of Animal Production, which will have the honour for the third time in its history - previously it was in 1975 and 1998. Due to the fact that the EAAP associates scientists and practitioners, as well as the representatives of the administration linked to animal science from nearly all European and world countries, its goal is to promote the improvement of animal agriculture through the application of science. Annual Meetings are the most significant forum for the exchange of information and discussion of animal production issues in Europe, and one of the most influential in the world – we expect approximately 1100 participants from more than 50 countries. Therefore the EAAP Congress gives an unique opportunity to present scientific and technical achievements of animal science and its translation into practice. During the 66th Annual Meeting a special discussion panel session will be organised on the specific issue of the implementation of scientific research outcomes in practice. Moreover, we plan to organise an exhibition, promoting mainly the companies active in the field of animal production – it will be held on 3rd and 4th of September. On behalf of the Hosts and Organisers I cordially invite you to participate in the Congress, aimed at translating research into animal production practice.

Prof. dr hab. Roman Niżnikowski
President of the Organising Committee
President of the Polish Society of Animal Production
Warsaw University of Life Science (SGGW) is one of the biggest and the most prestigious universities in Poland. It runs scientific and didactic activities as well as research implementations into a practice. At this life science university, the most important are of course life sciences but they are assisted also by technic, economy and humanities.

A great attribute of the University is a high developed infrastructure. SGGW Campus is one of the best planned and equipped educational and research complex in Poland. High developed personal facilities: dormitories, cafeterias, swimming pool, tennis court and other sport facilities distinguish it from other similar complexes. All buildings (49 in total): didactic, research and personal facilities are located on 70 ha. There is also a lot of space for the rest on the open air – a big part of the area is a beautiful park.
OPENING HOURS: 8.00 – 19.00
VENUE: Campus of the SGGW
Stands will be available for exhibitors on September 2nd, 2015 at 15.00

Industry Exhibition is a part of the Industry Days organised during the 66th EAAP Annual Meeting to bring science closer to practice and vice-versa. Except the exhibition two more session will be involved in it. First “Industry Day” session will take place on Thursday, September 3rd during the main, international part of the Meeting. Second session “Local Industry Day” will take place on Friday, September 4th and will be mostly for the Polish industry. This session will be translated simultaneously to Polish and English. Industry Exhibition will give possibility to present more research implementation to the practice.
